SENTINEL TECH

SENTEC PMS
Simplifying Hotel Operations with Efficiency Information, and Accountability
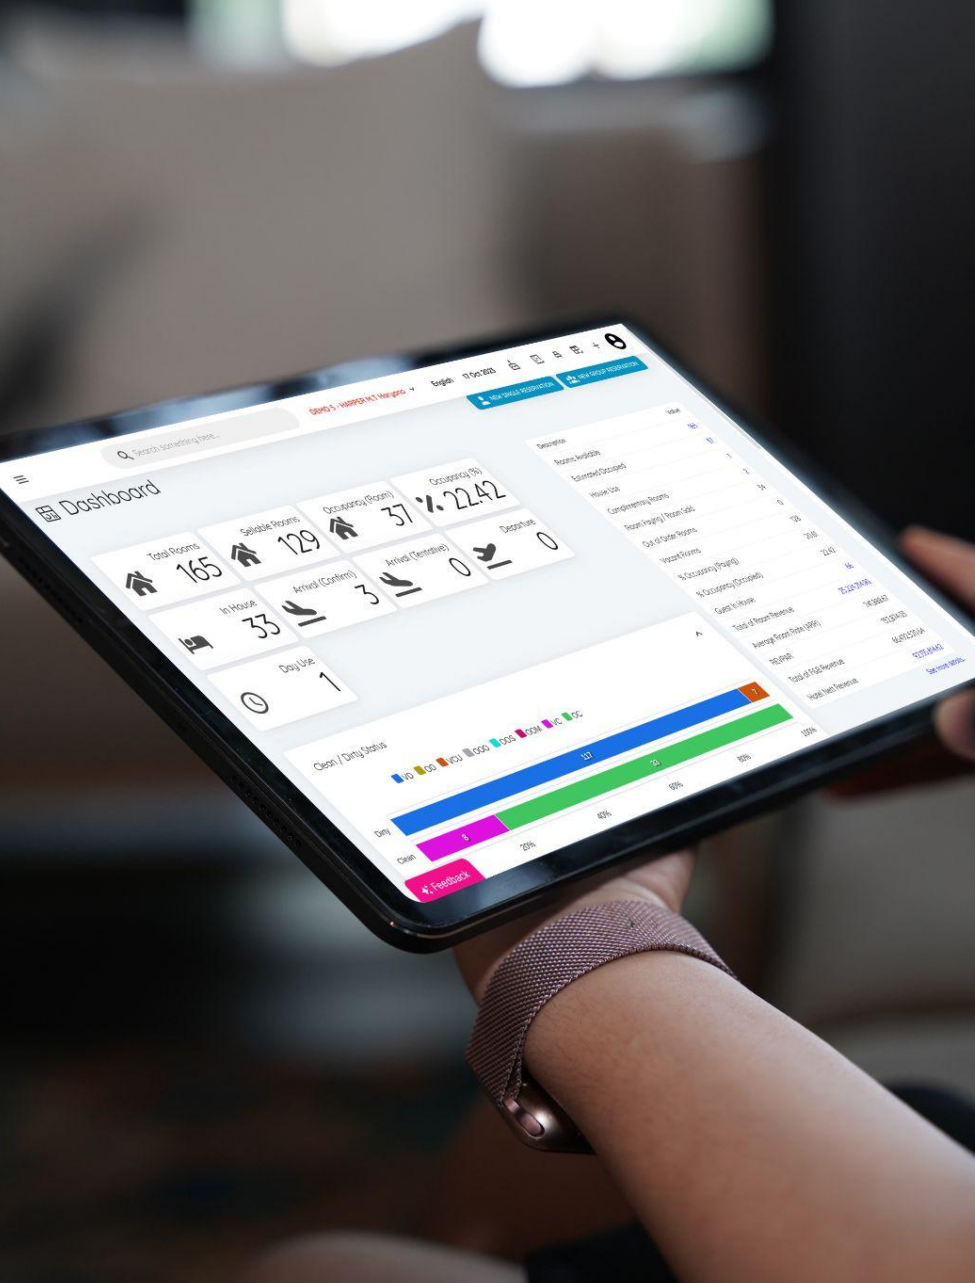

Streamlined Solutions
For Hotel Management

Leveraging 25+ Years of Expertise in Hospitality Technology

- 100% web-based platform for seamless access from any device, anywhere.
- **No upfront capital** investment—choose monthly payments.
- Fully Integrated Front Office, Point of Sales, and Finance modules.
- Designed specifically for hotels to improve operations and guest satisfaction.

Why choose Sentec PMS?

- **Efficiency**
  Reduces operational resources, staff, and time.

- **Informative**
  Quick, direct report generation to ensure accuracy.

- **Accountability**
  Minimizes fraud and human error through strong process control.

- **Single Price Scheme**
  No hidden fees based on modules, users, maintenance, integration, or support.

Maximize
Operational Efficiency

- 100% web-based system reduces IT infrastructure and resources.
- Decreases dependency on highly experienced personnel—streamline training.
- Fewer clicks and simplified workflows for day-to- day hotel operations.
- Integrated modules reduce time spent on switching between systems.

Accurate, Timely Information at Your Fingertips

- Customizable and comprehensive reporting tools directly from the system.
- Automated data consolidation across Front Office, POS, and Finance.
- Night audit and other daily reports are generated seamlessly for fast decision-making.
- Built-in compliance with international standards for reliable financial reporting.

Built-in Accountability and Fraud Prevention

- Robust user access management with custom permissions.
- Automated audits and transaction logs to reduce human error.
- Integration of finance and trust accounting with real-time updates.
- Helps ensure adherence to international accounting and hotel operation standards.

One Price,
All-Inclusive Service

- One flat monthly fee with no additional cost for adding users or modules.
- Suitable for hotels of all sizes—pay based on revenue, not features.
- Simplified budgeting with no hidden costs.

Key Features to Streamline Hotel Operations

- Fully integrated Front Office, Point of Sale, and Finance modules.

- Automated rate and availability updates with channel manager integration.

- Secure, serverless environment with automatic backups and failover.

- Cloud-based system accessible from anywhere no need for hardware investment.
